PHILIPPINES DEBATE

A Heated Discussion in the Senate Over Sedition Laws.

FIRE OF OPPONENTS.

Mr. Foraker Defended the Philippine Commission for Passing Such Stringent Measures—House Has Appropriation Bill.

Washington, Feb. 7.—The industrial commission has submitted its final report to congress. It is a document of more than 1000 printed pages. The first part, which has been made public, deals with the progress of the nation in agriculture, mining and transportation. The commission advises as to transportation:

"That the policy of governmental supervision and control of railroads, as originally laid down in the senate committee report of 1886 and embodied the following year in the interstate commerce commission, necessary for the adequate protection of shippers and clearly intended by the framers of the law, be restored and that the powers of the commission be enlarged practically as contemplated in the so-called Cullon bill of 1900, except as to authority to prepare and enforce uniform classification.

"Such legislation should provide:

"For more strong regulation of the conditions under which freight and passenger tariffs are published and filed.

"No rate or classification ought to be changed without at least 60 days notice to shippers unless specifically authorized by the interstate commerce commission.

"That strict adherence to published tariffs be required and rebates or discrimination prevented by an increase of the penalties.

"That the long and short haul clause be strengthened and rigidly enforced, unless the carriers shall be released by special order of the interstate commission.

"For the definite grant of power to the interstate commerce commission to pass upon the reasonableness of freight and passenger rates or charges; also the definite grant of power to declare given rates unreasonable, as at present, together with privilege to prescribe rates in substitution.

"For early hearings upon complaints and for prompt decisions by the commission.

"For a specific grant of power to the interstate commerce commission over classification, both as to items and grouping.

"For the establishment of a permanent corps of expert auditors; who shall have authority under the supervision of the interstate commerce commission, to examine periodically the accounts of all railroad companies.

"That, to further the effectiveness of the commission, its membership should be directly representative of the various interests concerned in the persons of shippers or business men, traffic experts (rail and water) and men of legal training and the number of commissioners should be increased to seven.

"That legislation analogous to the anti-stock watering statutes of Massachusetts be enacted to the several states.

"That railroad companies be prohibited by law from making their freight rates upon imports billed to the interior of this country in connection with ocean transportation than are otherwise made on similar articles from the seaboard to the interior, or than are made from one inland point to another, when the distance is not greater."

Prefacing its recommendations regarding agriculture, the commission says that "agriculture has derived more benefit from the establishment of the department of agriculture and from its administrative work than any other federal legislation."

It makes the following recommendations on this subject:

"That the secretariat of agriculture be given authority:

"To inspect dairy products intended for export, and to certify to their grade and quality.

"To fix standard grades for cereals, based on season of growing, quality and weight per measure and when intended for export, to inspect and certify the same.

"To cause stock cars and stockyards to be cleansed and disinfected whenever he considers such action necessary.

"To make adequate regulations prohibiting the shipment of uninspected or diseased meat from one state to another, or foreign countries.

"To require and direct the proper disposition of diseased meat.

"That a more comparative penalty clause for shipping diseased meat be enacted.

"That a law be enacted to provide: "For the inspection of nursery stock intended for interstate commerce or for export, and prohibiting the transportation of diseased, infected or un-inspected nursery stock and for rules

and regulations to govern the importation of nursery stock and fruit, and prohibiting the importation of diseased, infected or uninspected nursery stock or fruit.

"That adequate legislation be enacted by the several states where needed to control such disease as glanders, tuberculosis, etc.

"That whatever changes may be made by the tariff, by reciprocity or otherwise, adequate protection to the beet sugar industry be maintained.

"That the policy of setting aside forest preserves, already inaugurated, be extended."

YOUNG, ROOSEVELT ILL.

He Is Suffering from Pneumonia in a Massachusetts Town.

Washington, Feb. 7.—Owing to the illness of Theodore Roosevelt, jr., who is suffering from pneumonia at Groton, Mass., Mrs. Roosevelt has left for that place where she will probably remain for some days.

Mrs. Roosevelt has been obliged to recall her invitations for a tea next Monday, and also cancel all her engagements in Washington for the present.

It is not yet known whether the proposed trip of the president to Charleston will be abandoned. It is known he will go if his son's condition will warrant it and much will depend upon Mrs. Roosevelt's report after she reaches the young man's bedside.

WOMAN'S EXHIBIT.

In May a Display Will Be Made of Their Own Make.

New York, Feb. 7.—Madison Square Garden has been leased for the month of May by the Professional Women's League. Everything in which women are professionally engaged or personally interested will be exhibited during that time. The exhibits, it is promised, will range from the newest variety of baby incubators to a steam yacht, designed and equipped by a woman, to suit the tastes of women.

Departments will be devoted to women designers, goldsmiths, blacksmiths, barbers, trained nurses, school teachers, dentists, doctors and to every other profession or business into which the fair sex have entered.

The exposition will show how to furnish, care for and grace a home, and also how to earn one.

SAMPSON SINKING.

His Condition Reported to Have Taken a Serious Turn for the Worse.

Washington, Feb. 7.—Alarming rumors are afloat here to the effect that Admiral Sampson had taken a serious turn for the worse within the last 24 hours. Inquiries at the Sampson residence and of naval physicians developed there had been no decided change in Admiral Sampson's condition but steady retrogression in the progress which is common to his disease.

War Revenue Reduction Bill.

Washington, Feb. 7.—One of the house leaders, whose position gives him the fullest information as to the outlook of legislation, says:

"The programme for considering the war revenue reduction bill is fully understood, but it is not desired to give those who oppose the majority the fullest information on the exact time of its consideration in order to assist their opposition. One thing has been settled beyond any doubt that the bill will be passed exactly as reported in minor verbal changes."

Caused Eleven Deaths.

Chicago, Feb. 7.—The cause of Wednesday night's explosion by which 11 lives were lost, has not yet been fixed. Two business men in the vicinity said the explosion was in a defective boiler connected with the gas system in the basement of the building occupied by Butcher Troestel, which employees had attempted to thaw out. Others insisted the explosion was caused by the gas itself, but they were unable to say how the gas had caused it.

London Sun Sues Balfour.

London, Feb. 7.—The Sun has brought suit against A. J. Balfour, the government leader, in the house of commons, for slander, because of Mr. Balfour's declaration in the house that The Sun's interview with him concerning the overtures recently made by The Netherlands government is a fabrication.

Santa Fe Wants Into St. Louis.

Kansas City, Feb. 7.—It is reported that the Santa Fe railway is negotiating for the purchase of the St. Louis and Hannibal railroad to gain entrance to St. Louis. The latter road is 86 miles long and extends from Hannibal to Gilmore, Mo., where connections are had with the Wabash for St. Louis.

Total British Losses.

London, Feb. 7.—The war office publishes a summary of the British losses in South Africa. Up to Jan. 31 the total reduction of the forces, from death or permanent disability, was 25,305 men. The total casualties, including surviving wounded, was 5240 officers and 100,701 men.

the era of tall buildings reaching

Wonderful Things Baby Sees.

People big as out of doors—
Mostly gabbling meddling bores—
Do all sorts of things to me,
Good for nothing I can see.
What's the use of this or that?
Who am I? Where am I at?

Woman puts me in her lap,
Cuddles me to take a nap,
Tickles me and says "goo goo"
Till I try to say it too.
Awful silly, seems to me—
Wish they just would let me be.

Whiskered fellow grabs me up,
Calls me "Buster," "Lollypup,"
"Boss of all the blooming place,"
Rubs his whiskers in my face,
But when I begin to cry,
Drops me quick, I wonder why?

Little terror in top boots,
Tearing things up by the roots,
Mostly runs to dirt and noise,
Boom-de-aye and tooting toys,
Whiskers calls him "Dandy Jim"
Wonder what's the use of him?

Airy, fairy Tippetoe,
"Bout my size, or so and so.
Fed me on some angel cake—
Gave me awful stomach ache,
Woman calls her "Little Pet"—
Cutest thing that I've seen yet.

'Nother woman comes about,
Wrinkled, gray and somewhat stout,
Doses me on catnip tea,
Walks me, rocks me, cuddles me.
Whiskers says she "spoiled the kid,"
Didn't hurt him if she did.

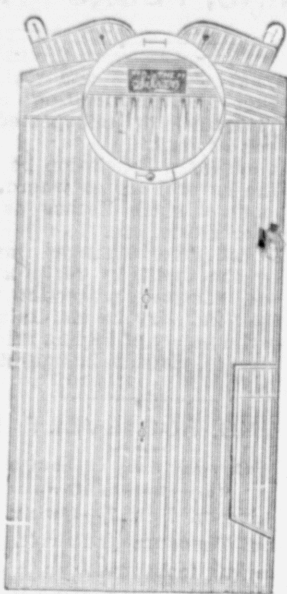

Never saw a world like this—
Ootsy-wootsy, cootsy-kiss—
Pick me up and put me down—
Trot a horse to Tumpty-town.
I thought people had some sense,
What's this I'm up against?

The Washington Post explains
just how poker is played without
cards or chips. Sporty congress-
men have discovered a new way of
gambling, says the Post: "They
match dollar bills and the bill
which has the largest array of fig-
ures, measured according to the
poker standard, takes the pot.
Thus, supposing one congressman
has a bill which is numbered 1303-
5932. He wins over a bill which
is numbered 27972468, because he
has three threes as against two
pairs." It would seem that the
game is not limited to congressmen
and that it can be played on the
streets or most any old place.

GAINSBOROUGH PAINTING.

Pinkerton Reveals Its Mystery With the
Death of Adam Worth.

Chicago, Feb. 7.—Adam Worth, alias
Henry J. Raymond, and known as
"The Napoleon of Crime," is dead in
London and with the announcement of
his death all the details of the recovery
of the celebrated Gainsborough paint-
ing were made public in Chicago.

When the famous picture was re-
stored to its owner in Chicago last
April there were many surmises as to
the medium of its return. William A.
Pinkerton, who made the formal an-
nouncement of the recovery of the
painting, refused to confirm or deny
any of the stories. Now that Worth
is dead, Mr. Pinkerton can speak.
Worth gave him written permission to
reveal the Gainsborough secret after
he died.

Wrapped in oil cloth, the canvas was
handed over to C. Moreland Agnew,
one morning last April in Chicago, by
Worth, who 25 years before had cut
the painting from its frame in the
Agnew galleries in London.

The return of the painting took
place in Mr. Pinkerton's private office.
The owner of the picture hurried back
to London for fear the United States
authorities would demand a custom
duty on the work which had been
secreted in this country for 15 years.
It was while in London that Worth
conceived the idea of carrying off the
Gainsborough picture. His first plan
was to rob the Royal academy of its
art treasures. Then he changed his
mind and directed his attention to the
Gainsborough painting. Assisted by
his partner, he climbed into the Agnew
gallery one night, cut the painting
from its canvas and carried it away.

Worth owned a steam yacht and the
canvas was taken aboard and conceal-
ed there until he sold the vessel to
Lord Lonsdale. Then he took the pic-
ture to Paris and finally brought it to
America, where it was concealed for
15 years. In the meantime Worth was
arrested in Brussels and forced to
serve seven years.

Mr. Pinkerton had known Worth 30
years. Two years ago Mr. Pinkerton
received a telegram telling him that
an important letter was at his home.
The letter was from Worth, who asked
an interview. This was granted
and Worth said he was going to die
and wanted to "turn up" the Gains-
borough in order that his two children,
who had been educated in a convent,
might enjoy the proceeds.

Through a hitch the picture was not
recovered at that time. Worth re-
turned to London and early last spring
he fulfilled his bargain.

BACK TO GALVESTON.

Morgan Line Steamers Will Make Head-
quarters Tie.

Galveston, Feb. 7.—What means the
transfer of the Morgan line of steam-
ers from New Orleans to Galveston
was announced here Tuesday from New
York. J. B. Stubbs, traffic manager of
the Southern Pacific, has been in New
York for several days conferring with
Mr. Harriman. On his recommenda-
tion the executive committee acted in
line with Mr. Huntington's original
plans. Mr. Stubbs says all through
business can be handled via Galveston
within 60 to 90 days, and it was so or-
dered by the executive committee.

This means that all freight for Tex-
as, Colorado, Utah, Arizona, New and
Old Mexico, California and the Pacific
coast, the Sandwich Islands, China and
Japan, will be routed via Galveston.

It is announced with official author-
ity that the executive committee of the
Southern Pacific system will stand pat
on the proposition of carrying out the
late Mr. Huntington's plans at Gal-
veston. These plans contemplate the
building up of terminals at Galveston
on the original lines laid by Mr. Hun-
tington. This means the bringing to-
gether of neat quarters of the steam-
ship and railway management at tide
water. In other words, the headquar-
ters of the steamship system now lo-
cated at Houston will be brought to-
gether at Galveston. The original
lines laid down by Mr. Huntington con-
template a ship repairing plant and
general depot, large storage and refrig-
erator warehouses, cotton compresses,
elevators, etc.

DEADLY OIL FUMES.

One Man Is Dead and Two Others Not
Expected to Survive.

Galveston, Feb. 7.—Three men were
suffocated here Thursday in a tank car
that had recently contained Beaumont
oil.

Owen Byrne is dead and his brother,
Pat Byrne and Joseph Day, are not ex-
pected to live. The men were employes
of the Santa Fe railway, and the acci-
dent happened near the carpenter
shops of that road. Owen Byrne went
down in the tank to repair a valve
and when prostrated by the fumes
his brother followed him to assist him
out. Pat Byrne immediately succumb-
ed, as was Day, who sought to rescue
the brothers.

Aged Preacher Killed.

Fort Smith, Ark., Feb. 7.—Rev. F.
L. Kregel, a superannuated Baptist
minister, 76 years of age, was killed in
the Missouri Pacific yards here. He
was partially deaf, and in crossing the
track was struck by a backing switch
engine. Both his legs and arms were
cut off.

Odd Fellows Adjourn.

Chicago was the first of the
world's great cities to inaugurate
the era of tall buildings reaching
so high up in the air as to earn the
title of "skyscrapers," and Chicago
was also the first city to place re-
strictions upon the height to which
such buildings might go. Now,
since Chicago has virtually removed
these restrictions, there is a re-
awakening of activity in the con-
struction of tall buildings with a
prospect that most imposing of
those already in existence will be
eclipsed by some that are soon to
be built.

Mrs. Percy V. Pennybacker Entertained at the Home of Mrs. J. Allen Myers.

Mrs. Percy V. Pennybacker of Austin, president of the state federation of women's clubs, was the guest of honor at a reception tendered by the ladies of the Reading club at the home of the president, Mrs. J. Allen Myers, yesterday afternoon from 3:30 to 5 o'clock. The members of the other clubs were guests and there were about one hundred ladies present. The rooms were tastefully decorated, and music and refreshments accentuated the social pleasures of the brilliant function. Mrs. Myers, in behalf of the Reading club, and Mrs. Dansby, for the Shakespeare club, presented to Mrs. Pennybacker bouquets of carnations and LaFrance roses. Mrs. Pennybacker delivered an animated and inspiring address on club extension and the library movement. ORIENTAL ADVICES.

Empress Dowager Shows More Friendly Feeling for Foreigners.

Victoria, Feb. 6.—Included in oriental advice received here is the decree of the empress dowager, which shows a most friendly spirit toward foreigners. The decree is issued in connection with the anti-Christian outbreak in Shan-Si and calls upon Viceroy Sung Fan to act in connection with the governor of Shan-Si and cause the desperadoes who have killed Belgian missionaries and their converts to be surrounded and slain. A number of local officials are cashiered and ordered to cause the capture of the desperadoes and in the event of failure they are to be forever dismissed from service.

From Vladivostok news is given of a battle between the cossacks and a band of 2000 ex-Boxers, who were found near the village of Tullhumo, which they had plundered. The brigands were behind earthworks and the cossacks, after shelling them with guns, charged them with swords and bayonets in the face of a severe fire from the Chinese. Losses of the Boxers were heavy and the Russians had seven wounded. The rebel leader fled to Mongolia.

The Japanese have an expedition in south Formosa, which is engaged in wiping out bandits who have been ravaging in those districts, and up to Jan. 15 the expedition, which is made up of 800 troops, 150 police and 200 coolies, had killed between 300 and 400 bandits. A number of officers and men of the expedition have been killed in severe fighting. The districts south of Tainan which is closely guarded and all gates watched, are terrorized by bandits.

THAWED OUT POWDER.

Two Men Are Dead, Four Injured and Houses Wrecked.

Telluride, Col., Feb. 6.—Two men are dead and four others seriously injured as the result of an explosion of powder in the powder house at the mouth of Japan tunnel.

The dead are:

D. R. O'Connell, aged 45.
Alphonso Flarieta, aged 22.

The injured are:

John Franck, shift boss, badly jarred and cut about the head.
Santino Marta, powder thawer, will lose one and probably both eyes and badly hurt about the back.

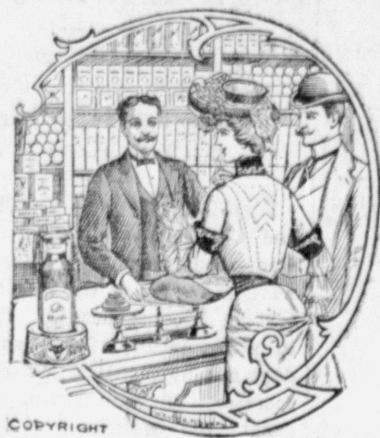

C. C. Weir, water packer, badly cut about the face.

Henry Meldrum, blacksmith, right arm and side badly hurt by falling timbers.

All buildings around the tunnel are a complete wreck. Marta, who was thawing powder in the powder house, stepped out of the building for a moment and the powder, becoming heated, exploded, the concussion setting off the entire powder supply, amounting to several hundred pounds. About 400 yards distant was stored tons of dynamite.

The door of the building was blown in, but the dynamite was undisturbed.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even the greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get all of Dr. G. G. Green's reliable remedies at the Wilson-Jenkins Drug Co.'s store, Bryan, Get Green's Special Almanac. dtf

ANOTHER DANIELS.

The Man Appointed Marshal of Arizona Is a Ranchman.

Denver, Feb. 6.—The police authorities of Cheyenne, Wyo., do not believe Benjamin Daniels, who served three and one-half years in the Wyoming penitentiary, charged with stealing government property from Camp Carlson and Fort Russell in 1879, is the same person recently appointed by President Roosevelt to the marshalship of Arizona, confirmation of which appointment is withheld by the senate pending an investigation. The last heard of Daniels was from New Mexico, where he was in the ranch business. This was within the last few years. This Daniels had no middle initial, whereas the Arizona Daniels is reported as having one. Friends of the Arizona Daniels living in Cripple Creek, who have known him over 20 years, deny emphatically that he has any prison record.

SENTENCED TO DEATH.

Sultan of Turkey Gets Such a Punishment for His Brother-in-Law.

Constantinople, Feb. 6.—The sultan's brother-in-law, Hamad Mahmud Pasha, has been sentenced to death. Mahmud has long been prominent in the young Turk movement, and recently was expelled from Greece at the request of the sultan. Mahmud went to Rome and the sultan requested his expulsion from Italy. It was refused, but Mahmud proceeded to Paris, where he remains in safety. All the sultan's blandishments failed to induce him to return to Constantinople, so the criminal court was instructed to issue a warrant for Mahmud's arrest and to try the fugitive by default with the result that he was sentenced to death.

Tom Powell Lynched.

Nicholasville, Ky., Feb. 6.—Tom Powell, the negro who assaulted Miss Della Powell Wednesday, was taken from officers and lynched in court-house yard here.

Conductor McMillen of Ottumwa, Ia., was killed at Afton, Ia. A freight train crashed into another freight engaged in switching.

VALUABLE DOCUMENT

Industrial Commission Makes its

Report to Congress.

SOME LAWS URGED.

It Requests More Stringent Acts Governing Railroads and Giving Interstate Commerce Commission More Power to Act.

Washington, Feb. 7.—The senate had the Philippine tariff bill under discussion four hours Thursday. Toward the close of the session the discussion became heated. In response to a resolution offered several days ago by Mr. Rawlins of Utah, the secretary of war transmitted to the senate the session laws enacted by the Philippine commission. They were read in full, and immediately drew the fire of the opponents of the government's Philippine policy. Mr. Hoar of Massachusetts expressed his astonishment that such laws should be enforced by the government authorities.

Mr. Foraker of Ohio had read from the revised statutes of the United States the laws of congress relating to the crime of treason and similar offenses against the government, and said that the acts passed by the Philippine commission were almost identical in their language with the laws enacted by congress in the days of the fathers of the republic and that there was nothing unprecedented or unusual about them.

The Ohio senator was interrupted continuously and had warm colloquies with senators who were opposing him. In one of them he announced with great earnestness that the American army would never return from the Philippines until it returned victorious.

Early in the day Mr. Scott of West Virginia delivered a speech in which he advocated an investigation of the San Blas route for an isthmian canal, and Mr. Hansbrough made a carefully prepared address on his bill to provide a national system of irrigation of arid lands.

The house spent the day on the legislative, executive and judicial appropriation bills. Very rapid progress was made, 74 of the 130 pages of the bill being disposed of before adjournment. No debate of importance developed during the consideration of the bill, and no amendments of importance were adopted.

The consideration of the oleomargarine bill was laid aside and the legislative, executive and judicial appropriation bill was taken up. Mr. Hemingway of Indiana, in charge of the measure, explained its provisions in general terms and pointed out the increase which it contained.

Under the latitude allowed in general debate, Mr. Talbot of South Carolina made a speech in opposition to the proposition emanating from the other side to cut down southern representation because of abridgement of the franchise.

Count Attempts Suicide.

El Paso, Tex., Feb. 7.—Count de Lucenay was arraigned on the charge of false swearing Thursday, and after a sensational examining trial was bound over to the grand jury in the sum of \$1000. In default of bond he went back to jail. Just after the court had announced its decision the count reeled and fell to the floor, writhing in convulsions. Physicians who were summoned treated him for strychnine poisoning, and after an hour's work restored him. He was conveyed back to jail, and a short time later attempted to drown himself in a bath tub. Subsequently he broke up a glass bottle and attempted to swallow the fragments.

Accidentally Shot.

Denison, Tex., Feb. 7.—A message from Kingston, I. T., says at Shay, Ok. to walker, a boy about 14 years of age, was accidentally shot with a 22-caliber target rifle in the hands of Louis Burton, a boy about the same age. The ball entered the right side of the neck. It is supposed his neck was broken, as he only lived a few minutes after the accident.

Given Death Sentence.

Greenville, Miss., Feb. 7.—Cocke and Lauderdale, two of the men indicted for the murder of William Wray, on a Valley passenger train last month, were convicted at Greenville, the jury rendering a verdict of guilty as charged. Sentence of death will be passed.

Wanted to Get Warm.

Madill, I. T., Feb. 7.—A 11-year-old boy set fire to a barn belonging to H. E. Fitch, about six miles south-east of Madill, and destroyed the barn and about \$700 worth of feed. When asked as to his motive, the boy said he was cold and wanted to make a fire by which to warm.

Century Mark Passed.

Greenville, Tex., Feb. 7.—"Aunt" Martha Hicks, who lives near Cedar Grove, has passed the century mark, her age being 102 years. She drove to this city Wednesday, with a relative, the distance being 25 miles, and returned during the afternoon.

President's Trip to Charleston.

Washington, Feb. 7.—President and Mrs. Roosevelt and party who will accompany them to the Charleston exposition will leave here for the south next Monday night in a special train over the Southern railway.

CHALLENGED FOR A DUEL.

General Egan and Lawyer Harlow Has a Fight on Foot.

Los Angeles, Feb. 7.—Owing to a misunderstanding in Guaymas, Mex., two Americans became involved in a quarrel that is said to have led to a challenge to meet upon the field of honor. One was General Charles P. Egan, of embalmed beef prominence; the other Colonel Willits P. Harlow of Nogales, attorney with a national reputation. Egan, who has been repre-

BRIGADIER GENERAL CHARLES P. EGAN.

sending W. C. Greene in a legal contest regarding the Cobre Grande copper mines of Mexico, met Harlow at a hotel. The two, so the story goes, had a warm dispute. Later, it is alleged, Harlow penned a challenge that was handed to Egan. Developments are awaited by the American colony upon the return of Harlow, who is reported in conference with Greene at Cananea.

SAMPSON OBJECTS.

Papers Filed Against the Claim That Schley Was in Command.

Washington, Feb. 7.—E. S. Theall, representing Stayton and Campbell, counsel for Rear Admiral Sampson, has filed with the president a brief in the Schley case. The document is short, and while it has not been made public it can be stated it is devoted entirely to one subject, namely, a protest against the claim set up in Admiral Schley's appeal that he was in supreme command during the battle off Santiago. The paper will be considered by the president in connection with Admiral Schley's appeal and the navy department's comment.

The principal point in the brief is the allegation that it was Sampson's custom when moving about among his fleet to hoist the signal "disregard the movement of the flagship," but that he invariably hoisted a specific signal when going beyond signal distance of his fleet, directing the second in command to assume command. The brief says this signal had been brought on the deck of the New York, but had not been hoisted when the New York returned to join the battle.

OPPOSITION TO RUSSIA

United States Joins England and Japan as to Manchuria.

PORT MUST BE OPEN

The Three Countries Will Resist the Signing of the Treaty if Their Interests Are in the Least Jeopardized by It.

Washington, Feb. 7.—While details of negotiations cannot be developed here, the present confirmation is to be had that the report from Pekin that the United States government is acting with Japan and Great Britain in resisting any action by Russia and China in the shape of the Manchurian treaty that would threaten the interests of the United States in that important section of the east.

The state department has made perfectly clear to Russia its purpose to retain whatever trade advantages it has in Manchuria and its determined attitude in the matter is probably to prevent the summary closing of the Manchurian ports to any but Russian trade.

REV. WALDO FOUND.

After Five Years' Wandering His People Hear from Him.

New York, Feb. 7.—After five years absence, Rev. Edward A. Waldo, who formerly was connected with the University Settlement society of this city, has been heard from at San Francisco. Although detectives have searched this country and Europe, Dr. Waldo himself, after the long silence following his mysterious disappearance from New York in the summer of 1896, first sent word to his family who had long ago given him up as dead, and his brother, George B. Waldo, an artist of this city, has started for San Francisco.

It was to his aged father, Simon S. Waldo, one of the leading business men of New Haven, Conn., that the missing minister sent the letter. Realizing their probable fears of a joke he had taken the pains to have the letter countersigned by a San Francisco minister, with whom he is temporarily staying.

Dr. Waldo left the headquarters of the New York University Settlement society on the afternoon of July 13, 1896, and between there and his home, he disappeared. Detectives traced him as far as a Mississippi river town, where he was supposed to have boarded a boat for New Orleans, but there the clew ended.

Once before Dr. Waldo had a similar experience. He labored in Chicago before coming to this city, and while doing mission work there he disappeared. He had been raising a large fund for the purpose of provisioning the poor of Chicago. Some weeks later Dr. Waldo was found wandering aimlessly about the streets of Tallahassee, Fla. It was three weeks before he could tell his name.
